

Transgenic Organisms: Due WEDNESDAY

- Create a 1 page sign about an existing genetically modified organism (GMO).
- Choose a plant or animal that is genetically modified.
- Search for one by selecting your favorite fruit, vegetable, or meat and combining it with the terms GM, GMO, transgenic, genetically modified, OR select from the list below:

FlavrSavr tomato
NewLeaf potatoes
Triffid flax

StarLink corn
Roundup Ready
Liberty Link crop

Bt corn
Bt cotton
Golden Rice

UH Rainbow
Papaya
Safflower

- Your sign must include the following pieces of information:
 - 1) your name
 - 2) name of transgenic animal or plant
 - 3) photo
 - 4) purpose of the genetic modification along with some supporting details
 - 5) minimum of 2 references
- Your sign must also include at least ONE of the following options
 - a) the date the first GM version was created
 - b) the company or team of researchers that created it
 - c) its current status: legal/illegal, # of seeds/plants/animals created, products it is part of

Sample:

GM Zebricorn

- Resistant to deadly spot virus
- tastes like chicken
- Enriched with vitamin F

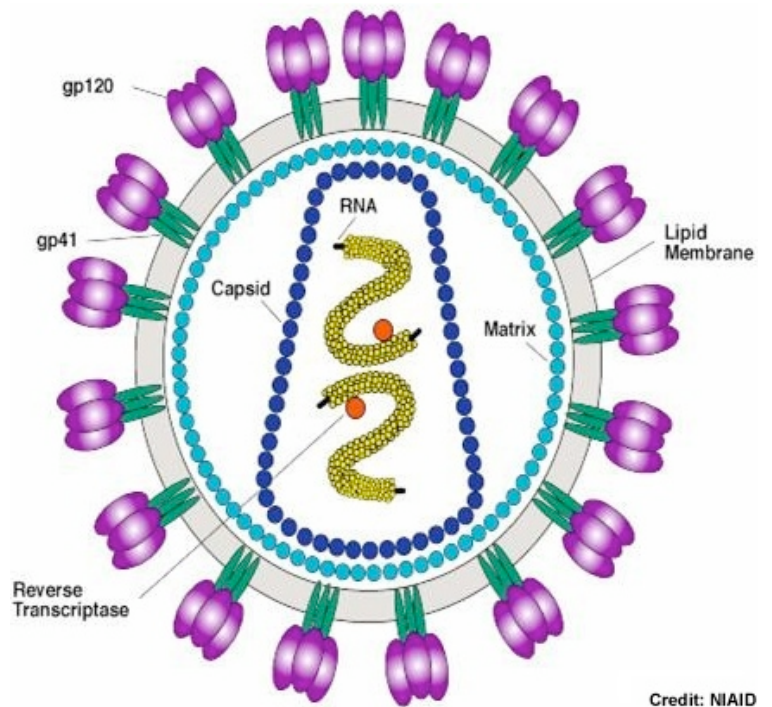

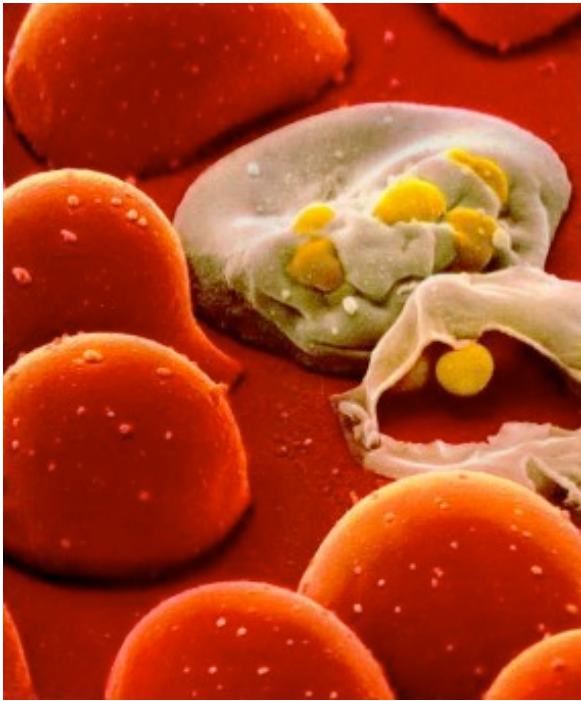

Illegal in shaded countries above

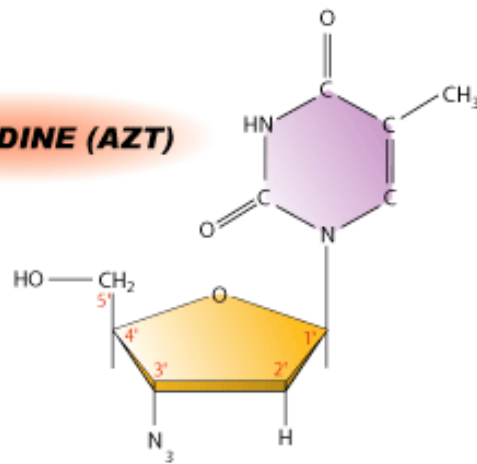

Developed by Monsunno 2004!!!
